**NOTICE TO ALL AIR CARRIERS SERVING
SHERIDAN COUNTY AIRPORT**

RE: Notice of "Type A" Amendment and Change in Expiration Date to PFC Application # 3 for SHR

Sheridan County hereby provides notice, in accordance with 14 CFR 158.37 (a) of the Passenger Facility Charge Regulation ("PFC Regulation"), of a "Type A" amendment to PFC # 04-03-C-00-SHR.

PFC Application #3 was approved by the FAA on October 5, 2004. This #04-03-C-00-SHR application is now complete and prior to closeout of the application, it needs to be amended to decrease the total collection amount from \$247,309 to \$247,183. All seven projects in this application are now complete and we have final actual expenditures.

Project #IV *Reconstruct Commercial Apron* was approved for \$18,080 to provide the local match for an AIP grant. The project came in slightly over the engineer's estimate. This resulted in an increase in the local match of \$1,457 to \$19,537. Additionally, Project #III *Reconstruction of Parallel Taxiway "A"* was approved for \$97,812 in PFCs. The project is now complete and the actual PFC funds needed is \$96,411. This results in a savings of \$1,402 from the original budget. The only other project difference is in Project #II *Land Acquisition* which has an actual final PFC project cost of \$5,993 compared to an approved amount of \$6,175, resulting in a savings of \$182.

These changes result in a revised collection amount needed of \$247,183. The actual amount of collections required for this application (\$247,183) will be complete by September 1, 2008. This results in a change in estimated expiration date due to our increased enplanements over the last few years. A new PFC application is in process to continue our PFC program when this application is fully collected resulting in continuous PFC collections.

If you have questions about this amendment or the new expiration date, please contact me.

Sincerely,

John W. Stopka
Airport Manager
